

## Regatta Photography

There will be two photographers on the course on Saturday and there may be some interviews at different times. These interviews and some of the photography will be used to create a short documentary about this inaugural event.

In addition there will be a media boat both on the course – yes, cognizant of wake – as well as outside the course, at mark rounding and at the start. The pictures will be made available to you via several links. Check back here both during and after the regatta for the direct links to photos that can be downloaded for you use.
